LED A19 LAMPS — IN STOCK

Lumen Efficient Design Inc. · lumenefficientdesign.ca

Omnidirectional A19 lamps, E26 and GU24 — ready to ship. Contact us for pricing and quantities.

Wattage — Read from the part number. Turolight VIV-A19/X18/9W = 9W and /15W = 15W. LEDI TP120-8 = 8W, TP120-9 = 9W, TP120-14 = 14W. A dash means the rating was not confirmed.

Base & volts — E26 is the standard medium screw base. GU24 is the twist-lock base, used on the two 9W dimmable lamps that name it. 120V is shown where the part (TP120) or the description states it.

Dim & notes — Dim = Yes when the part is marked DIM or /D; No for ND or NON-DIM. ES (Energy Star) and ECO appear in Notes. LEDI and LUMEN are shown as Lumen (LEDI). Turolight is shown under its own brand.

CFL PIN-BASE LAMPS — IN STOCK

Lumen Efficient Design Inc. · lumenefficientdesign.ca

Compact fluorescent pin-base lamps — twin, quad, triple and long twin PL-L — ready to ship. Contact us for pricing and quantities.

Wattage & CCT — Wattage is read from the part number (PL13W = 13W, PLL40W = 40W, FTL55 = 55W). 827 = 2700K, 835 = 3500K, 841 = 4100K. 1U = twin tube, 2U = quad, 3U = triple, PLL / FTL / PL-L = long twin.

Pins & base — 2-pin lamps typically run on a magnetic ballast; 4-pin on an electronic ballast. Bases are those stated on the part, or the standard industry base for that wattage and pin type: GX23 (1U 2P, 5–13W), GX23-2 (1U 4P 13W), G24d-1/2/3 (2U 2P 13/18/26W), G24q-1/2/3 (2U 4P 13/18/26W), GX24q-2/3/4/5 (3U 4P 18/26–32/42/57W), 2G11 (PL-L / FTL).

Notes — Four-digit numbers are Plusrite item numbers (e.g. 4018). “listed as TRIPLE” means the source list tagged that 2G11 long twin as TRIPLE; it is filed here with the other PL-L lamps. LUMEN brand is shown as Lumen (LEDI).

T12, T5, T8, U-bend, circline and high-output lamps — ready to ship. Contact us for pricing and quantities.

Wattage & length — On most lamps the number in the part is the watts (F32T8, FO32, FL28T5, F40, L58W). For slimline (F48T12, F60T12, F72T12, F84T12, F96T12, F72T8, F64T6) and HO lamps that number is the length; watts are the confirmed industry rating (F96T12 = 75W, F96T12/HO = 110W, F48T12/HO = 60W). A dash means the rating was not confirmed.

CCT — 830 = 3000K, 835 = 3500K, 840 = 4000K, 841 = 4100K, 850 = 5000K, 865 = 6500K (935 / 941 / 950 are the 90-CRI versions of 3500 / 4100 / 5000K). CW = cool white 4100K. D / DX = daylight 6500K. CWX / CX / DCW = cool white deluxe. WW = warm white 3000K. BL / BLB = black light (UV).

Bases & notes — G13 medium bi-pin (standard T8 / T12). Fa8 single pin (slimline). R17d recessed double contact (T12 / T8 HO). G5 miniature bi-pin (T5). G10q 4-pin (circline). Notes carry item numbers, ECO, ALTO, shatter, HO, and a "list:" flag when the brand in the description differs from the list. LUMEN / LEDI is shown as Lumen (LEDI).
